1) Use better graphics and visual media to engage students well.

Better graphics and colors arouse the interest and desire to learn among students. Even if they are in senior classes, this way must be adopted.

2) Try to reach every student and ask for their doubts.

This can only happen in a class with a moderate or limited strength of students, and is extremely important because this way, students concentrate on studies more.

3) Make teaching a two way interaction.

Do not simply give lecture or teach, ask students for their doubts and other questions
