AQAR 2021-2022

7.3.1 Institutional Distinctiveness

Title of the Practice: NOON MEALS SCHEME

Objectives:

- To satisfies the hunger and ensuring nutritious growth to needy students
- To eradicate poverty and monetary inequality within campus
- To create an amiable atmosphere for financially backward students to pursue education
- to increase in literacy rate of students.

The Context:

Food for thought is possible only when there is food for the body. But the rural climate of the College brings in students who struggle to eat three meals a day. Hence, the College decided to lend a helping hand to the students from low economic backgrounds. The real challenge while designing the practice was that the students had inhibitions in revealing their poor economic situation. Further, they did not come forward to participate in the Noon Meals Scheme. On further analysis, it was found that the students needed benefaction but they wanted to remain anonymous. This issue was taken into consideration.

The Practice:

The Coordinator for Noon Meals Scheme plays an important role as he/she is responsible in executing the smooth functioning of the scheme. The students are

informed about the scheme at the beginning of every academic year. Students are made to feel at ease through their tutor who corresponds with the Coordinator and informs the number of students from their respective departments. After which the Coordinator issues tokens which is again sent to the students through their departments. The token system is to ensure equality and anonymity of the beneficiaries. They give the tokens in the canteen and receive their food packets on every working day. Around 39 students are beneficiaries of this scheme for the academic year 2021-2022.

Staff of the aided stream financially assist the demands for the scheme. The Coordinator keeps record of their monthly contributions and expenditure. A sample of one month's financial records is shown below.

Evidence of Success:

The students voice out their gratitude either to the Coordinator or to their departments. The beneficiaries are happy that they eat a wholesome meal in College. The students were happy about the quality of the food. It is frequently checked by the Coordinator and staff to ensure nutritious food to the students. Another improvisation on the scheme is the launch of Whatsapp group in which the students give their feedback about the quality and quantity of the meals- their voice is seriously taken into consideration and necessary steps are taken to even better this project.
