2023 – 2024

CURRICULA FEEDBACK ANALYSIS REPORT (2023-2024)

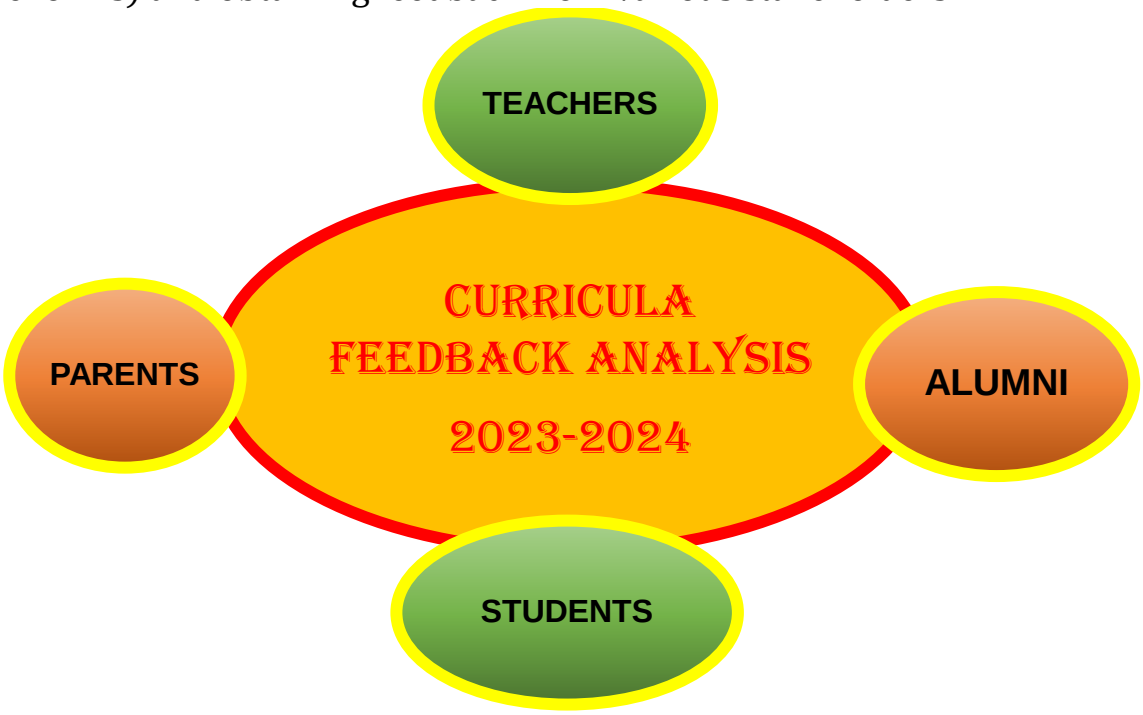
POPE'S COLLEGE (AUTONOMOUS)

SAWYERPURAM

CURRICULA FEEDBACK ANALYSIS REPORT (2023-2024)

DATA COLLECTION AND ANALYSIS

Curricula Analysis is a process utilized by our college to solicit information from a variety of sources on different aspects of the curriculum. Most often, information solicited in this feedback process includes feedback from all the stakeholders of the College. The IQAC of the college has developed the online feedback mechanism (Structured rating based Google forms) and obtaining feedback from various stakeholders.

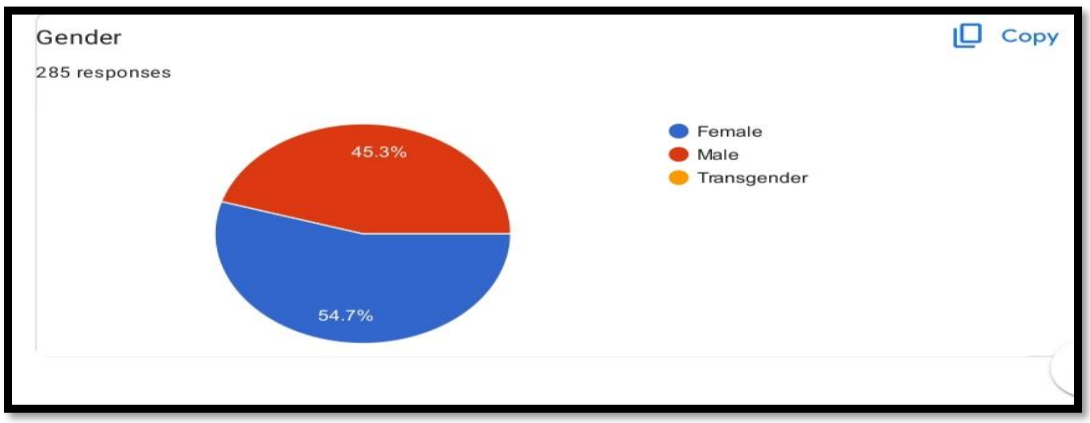


The IQAC of the college collects feedback form from the students, teachers, alumni and parents pertaining to the varied aspects of the curriculum they studied for continuous improvement in curriculum development and enrichment. The feedback forms have been designed with the help of Google forms and shared with the stake holders through social media groups. They are required to submit their responses to a set of ten statements ona5-point Likert Scale in which choices range from Strongly Disagree(1)to Strongly Agree(5) and 2-point Likert Scale (Yes or No).

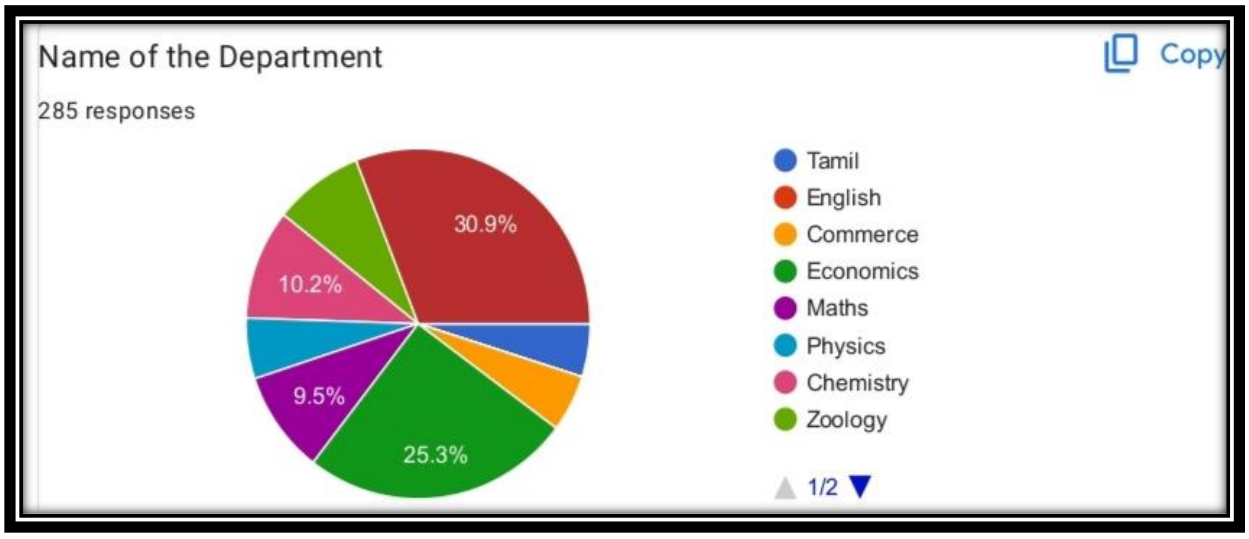
In order to arrive to comprehensive results useful statistical tool percentage have been used. The feedback thus received is then analysed. The analysis of the stakeholders' feedback for the session 2023-2024, is presented as Stake holders-wise and is as follows:

STUDENTS FEEDBACK ON CURRICULA 2023 - 2024

Students Profile



The students are the most important stakeholders of Higher Education systems. The interest and participation of students at all levels in both internal quality assurance and external quality assurance have to play a central role. We have collected online feedback from our under graduate students and post graduate students. We have received total 285 student's online feedback on the curriculum of the various programmes designed by the college. The above chart shows that 54.7% of respondents were girls and 45.3% were boys.



The above Chart depicts the course wise classification of student respondents. It was noticed that 30.9% responses were received from English department students, 25.3% from Economics department students,10.2% from chemistry students , 9.5 % responses were collected from Maths students, The remaining percentage of responses were collected from Tamil, Physics, Commerce and Zoology students.
